“

We were using Mailchimp for our lead generation campaigns, but **Mailchimp started blocking/suspending certain email addresses** as they were not opted in.

Legally you can send to purchased data in the UK and we now use Spotler as they allow their customers to target non opted in data including purchased lists via Legitimate Interest.”

DCRS

Established in 1987, DCRS have become one of the UK's market leaders in the hire, sales and service of two-way radio communication products and applications to clients throughout the UK and Europe.
