

CUSTOMER TESTIMONIAL.

CHARLOTTE WEBB | HEAD OF MARKETING

HYVE

“ We chose Spotler as we wanted a marketing automation platform that had a **great integration with our bespoke CRM** and one that gave us something **more than what we were getting from Mailchimp**.

As we run a lot of PPC campaigns, we can now **report on the ROI of this more effectively** within the CRM. And not only that, we get more leads from the paid campaigns even if they don't initially form fill.

These **leads (through the IP Lookup software) are now passed on to our sales team through the CRM**, and we now have more detailed campaign information at our fingertips, all without having to manually import and export from Mailchimp. ”

We are Hyve, your cloud experts. We combine our small team ethos with a passion for technology and support by providing fully managed, global cloud hosting services to a variety of customers.
