

CUSTOMER TESTIMONIAL.

KEN BALDWIN | SALES DIRECTOR

OPEN MIND TECHNOLOGIES

We have chosen Spotler for our IP tracking software as their match rate was superior to Leadfeeder.

During the trial, they identified a lot more companies and they also have an outlook integration, which helps the sales team cookie and track their prospects.

I am more than happy to recommend Spotler to any prospective new customer and am currently evaluating their full marketing automation suite.

OPEN MIND is one of the world's most sought-after developers of powerful and innovative CAM/CAD solutions for machine and controller-independent NC programming.
