

CUSTOMER TESTIMONIAL.

TOM BYRNE | COMMERCIAL MANAGER

TRADE GEAR

We chose Spotler as our email marketing platform, as we wanted something **more than what we were getting from Mailchimp**; more than just an email platform.

Along with all the core features that Spotler's software offers, like deliverability checking, Ai, dynamic content and more, the 'something' extra we get with Spotler is the ability to **email non opted in contacts and purchased data** using Legitimate Interest. It opens a new channel for us to get more leads from outbound emails for the sales team. ”

Trade Gear is all about your needs for your business and home. We have many years of expertise and contacts and undertake intensive research into our brand areas. We put the hard work into sourcing the best products possible for the best price possible so you don't have to.

From line marking equipment to heaters and air conditioning units to home interiors and more.
